Manager Wells of the Wailuku Sugar Company has consented to allow the association to use the grounds, under certain restrictions. However, through an error on the part of some of the employees of the Walluku Sugar Company, quite a strip in the baseball field has been plowed up preparatory to planting but this defect will be somewhat remedied before the baseball season commences. The Athletic Associaaction will be taken by the present legislature with reference to Sunday recreation. A small fee has always been charged by the association for admission to games, and as the patronage is not very large, the proceeds from baseball games barely pays running expenses to enable the club to keep up the sport.
